THE ROTARY FOUR-WAY TEST

- 1) Is it the TRUTH? 2) Is it FAIR to all concerned?
- 3) Will it build GOODWILL and BETTER FRIENDSHIPS? 4) Will it be BENEFICIAL to all concerned?

LAST WEEK

If this picture looks familiar, it is because it is the same team as last year that made the **Science Showtime @ Golden West College Campus**

such a big success. Our meeting last week was held in the Humanities Building on the Campus where we met up with Chemistry Professor (now retired) **Carol Grimes**, ScienceWorks Coordinator, **Susie Crandall** & Dean of Science and Math, **Connie Roohk** all remembered from last year. This year we met **Mary O'Connor** from Nursing. Although she was unable to join us last time, we all remember the life like baby and the mannequin with the beating heart.

Connie Roohk gave us an introductory talk on the challenges the College has to face. The emphasis was on Budgets and Enrollment. Carol Grimes lightened the mood with a hands-on demo with **Wally & Brenda** on how to make "slime" and then "play dough". This was a big hit with the kids last year.

John Baley did a great job of putting it all together for our on the road meeting, including a great lunch. Don't forget to step up and help with this year's Science Showtime event.

STUDENT BACKPACKS –

Shown here is one of the groups of students receiving the filled backpacks we put

together. Thanks to **Mary Baley** for getting us organized to put the supplies together so over 70 young people get a fresh start on the new school year.
