### THE ROTARY FOUR-WAY TEST

- 1) Is it the TRUTH? 2) Is it FAIR to all concerned?
- 3) Will it build GOODWILL and BETTER FRIENDSHIPS? 4) Will it be BENEFICIAL to all concerned?

### LAST WEEK

**Art Lofton**, VP and CIO at Northrop Grumman's Aerospace Systems Sector, gave us the equivalent of a craft talk. He told us of an "Engineers Journey" from being a teenage car engine

enthusiast to an aerospace engineer. **Mary Baley's** mentee, **Brenda Hernandez**, an aspiring engineer, was on hand to hear about the many twists and turns that can be involved in reaching a goal. He talked some technical stuff like "Force = Mass X Acceleration", but was focused on how "Good People – Great Team" should be the goal.

The meeting started out upside down, with our speaker being first on the agenda rather than after lunch since he had to leave early due to a business commitment. We had lunch, announcements, and other Rotary stuff later. It was kind of fun for a change and we thank Art for keeping his commitment to us.
