THE ROTARY FOUR-WAY TEST

- 1) Is it the TRUTH? 2) Is it FAIR to all concerned?
- 3) Will it build GOODWILL and BETTER FRIENDSHIPS? 4) Will it be BENEFICIAL to all concerned?

LAST WEEK

Detective **Brad Smith** from the Huntington Beach Police Department talked to us about all the many ways of "Identity Theft". He told of the skimmers placed on ATM machines that steal your bank numbers and more.

He also warned us about the prepaid red dot cards. Brad certainly looks the part of the "white collar" crime department he works now. However, he told us of his early days in Police work that were spent in the narcotics department. He did some undercover work with the shoulder length hair and full beard. His family was delighted when he cleaned up.

Since our Program Chair, **Scott Smith** introduced him to us, he used Scott in several of his examples of how a scam might work. By the end of his presentation, several of us were beginning to think that these two "Smith" boys were brothers.

It was a great meeting and certainly grabbed everyone's attention. Thank you, Brad & Scott.

Our visiting Rotarians, **Gordon & Penny Shurtleff**, were from two different clubs in the La Jolla area. **Christina's** mom, **Fatima**, also joined us for the day. The good and the bad news in the visitor department is that our former International Scholar, **Roger Mignosa** joined us for the day. The bad part is that while he continues in his scholarly ways, he will not be with us again soon. He will be studying in Oregon for the next year. We will miss his hugs and hand shakes until his return and look forward to the day we will introduce him at Dr. Mignosa.

next year. We will miss his hugs and hand shakes until his return and look forward to the day we will introduce him at Dr. Mignosa.
